Summary

Computer Science graduate with hands-on experience building full-stack applications and AI assistants using React, Python, and FastAPI. Skilled in REST API development, database integration, AI tool calling, and retrieval-augmented generation. Seeking a software engineering role to contribute practical development skills.

Education

Islamic University of Madinah — Madinah, Saudi Arabia
Bachelor of Computer Science — *2021 – 2026*

- GPA: 4.49 / 5.0

Experience and Projects

Prince Sultan Armed Forces Hospital — Madinah, Saudi Arabia
IT Intern (Cooperative Training) — *Jul. 2025 – Aug. 2025*

- Supported daily IT operations and resolved technical issues in a healthcare environment.
- Collaborated with technical teams to troubleshoot systems and maintain reliable operations.

Nahj – Career Matching Platform — React, FastAPI, Node.js, Supabase, AI
Full-Stack Developer

- Built company-facing features for a graduation capstone connecting students and employers through profiles, opportunities, and AI-driven career recommendations.
- Implemented a Python career assessment module using Gemma 2 via Ollama to generate structured JSON results.
- Developed reusable React components and FastAPI endpoints with Supabase for profiles, opportunity matching, and skill gap analysis.

AI-Powered CRM Assistant — Python, React, FastAPI, LangGraph, Gemini, Chroma
Full-Stack Developer

- Built a CRM assistant using tool calling to search customer records, manage tasks and notes, and identify overdue follow-ups through natural-language commands.
- Implemented LangGraph approval workflows and SQLite checkpoints to persist conversations and pending approvals, with a React interface and FastAPI endpoints.
- Integrated retrieval-augmented generation (RAG) using Gemini embeddings and Chroma to retrieve customer records and notes with source references.

Certifications

Programming with JavaScript — Meta — Coursera
JavaScript fundamentals, functions, and objects. — *Jan. 2026*

Introduction to Front-End Development — Meta — Coursera
HTML, CSS, JavaScript, and responsive design. — *Jan. 2026*

Technical Skills

Languages: Java, JavaScript, Python, SQL
Web: HTML, CSS, React, Node.js, FastAPI, Flask, Spring Boot
AI: LangGraph, Gemini, Chroma, RAG, Tool Calling
Databases and Tools: PostgreSQL, Supabase, SQLite, Git, GitHub
IT: Technical Support, Troubleshooting, Networking

Languages

Arabic: Native
English: Professional Working Proficiency
